RK Dairy Farm

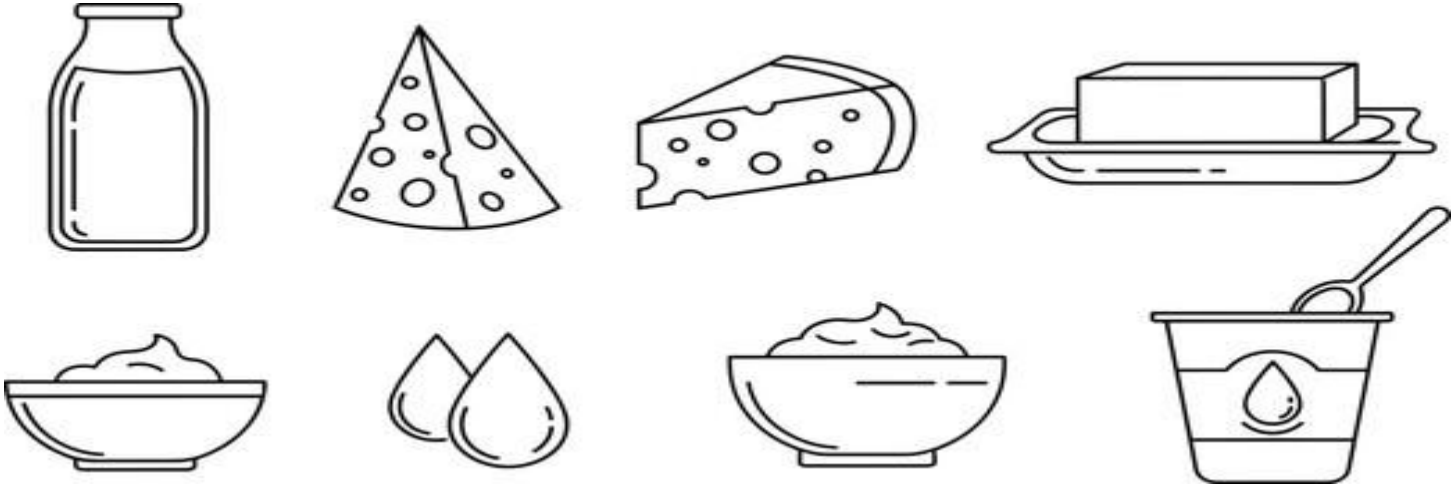
PROJECT OVERVIEW

- **RK Dairy Farm** is a simple web application that provides fresh and natural dairy products directly to customers.
- Users can browse products and securely purchase them after logging in.

🎯 Problem Statement

- Difficulty in finding fresh and chemical-free dairy products
- Lack of digital platform for dairy farm management



💡 Solution

We developed a web application that:

- Connects customers directly
- Provides fresh dairy products online
- Allows easy browsing and ordering
- Secure login system

🛠️ Tech Stack

🎨 Frontend

- React
- Tailwind CSS
- Next.js

⚙️ Database

- MongoDB

🧰 Tools

- VS Code
- GitHub
- Vercel / Netlify

⏳ Project Duration: 25 Days

📅 Week 1:

- 🛠️ Project setup
- 🎨 UI design (Home, Products)

📅 Week 2:

- ⚙️ Backend setup
- 🔐 Login & Authentication

📅 Week 3:

- 🛒 Cart functionality
- 📦 Order placement

🚀 Final Days:

- 🧪 Testing
- 🐞 Bug fixing
- 🌐 Deployment
